1. Describe Adnan Syed's alibi for the time of Hae's murder.

Adnan claimed that he was at the library during the time of Hae's disappearance. He stated that he was there with a friend named Asia McClain. 2. Who is Jay Wilds, and what role does he play in the narrative?

Jay Wilds is a classmate of Adnan Syed who testified against him. He claimed that he had helped Adnan dispose of Hae's body. His testimony proved pivotal

in the prosecution's case; however, inconsistencies in his statements raised doubts about their accuracy and reliability.

3. What evidence contradicts Adnan's alibi?

One of the primary pieces of evidence that contradicts Adnan's alibi is the testimony of Jay Wilds, who places Adnan with Hae at the time of her murder. Additionally, cell phone records were introduced that purportedly tracked Adnan's location, although the accuracy of this evidence was later called into question.

4. What were the consequences of the investigation methods used by law enforcement?

The investigative methods utilized by law enforcement, especially the reliance on witness testimonies and the handling of physical evidence, raised issues of fairness and integrity. The episode highlights potential biases and the lack of thorough investigation into Adnan's alibi. This has broader implications for how investigations are conducted, particularly in cases involving marginalized communities.

5. How does the episode portray the legal system's handling of the case?
