Gameplay Strategies

Early Game Tips

1. Focus on Ranged Combat: In the early game, prioritize ranged attacks to keep enemies at bay. Use your superior range to whittle down health before they can reach you.
2. Utilize Terrain: Take advantage of obstacles and terrain to create distance between you and your enemies. High ground can also give you an advantage in attacks.
3. Manage Resources: Keep an eye on your arrows. Running out can leave you vulnerable. Collect arrows from defeated enemies and search for arrow supplies in treasure chests.

Mid to Late Game Strategies

- Upgrade Your Gear: As you progress, focus on upgrading your bow and arrows. Look for enchantments that enhance your damage output or provide special effects.
- Positioning is Key: Always be aware of your surroundings. Maintain a safe distance from melee attackers and use the environment to block incoming projectiles.
- Use Traps Wisely: Set traps in chokepoints or areas where enemies are likely to pass. This can help control the battlefield and deal damage without exposing yourself to danger.
