The Concept of Divine Nature

Understanding Divine Nature

In Christian theology, the divine nature refers to the attributes and characteristics of God. For Wigglesworth, manifesting the divine nature meant embodying God's love, power, and righteousness in everyday life. He believed that every believer has access to this divine nature through faith in Jesus Christ.

Key aspects of divine nature include:

1. Love: The foundational attribute of God that should be reflected in the lives of believers.
2. Holiness: The call to live a life set apart for God, free from sin.
3. Power: The ability to overcome challenges and perform miracles through faith.
4. Wisdom: The guidance to make decisions that align with God's will.

The Biblical Basis

Wigglesworth often referred to Scripture to support his teachings on divine nature. 2 Peter 1:3-4 is a foundational passage that states:

> "His divine power has given us everything we need for a godly life through our knowledge of him who called us by his own glory and goodness. Through these he has given us his very great and precious promises, so that through them you may participate in the divine nature, having escaped the corruption in the world caused by evil desires."
