Getting Started with the Smok Novo 3

Before you can enjoy your Smok Novo 3, it is essential to set it up correctly. Here's how to get started:

Unboxing Your Device

When you open the package, you should find:

- 1 x Smok Novo 3 Device
- 2 x Novo 3 Pods (1.0Ω MTL and 0.8Ω Mesh)
- 1 x Micro USB Charging Cable
- 1 x User Manual
- 1 x Warranty Card

Charging the Device

1. Locate the micro USB port on the bottom of the device.
2. Connect the provided charging cable to a USB power source.
3. Insert the other end of the cable into the micro USB port.
4. Wait until the device is fully charged; the LED indicator will turn off when charging is complete.

Filling the Pods

1. Remove the pod from the device by gently pulling it out.
2. Flip the pod upside down and locate the fill port.
3. Using a suitable e-liquid, carefully fill the pod, avoiding overfilling to prevent leaks.
4. Replace the rubber stopper securely after filling.
5. Allow the pod to sit for a few minutes to ensure the cotton wick is saturated before first use.

Installing the Pod

1. Align the pod with the device's connection points.
2. Gently push the pod into the device until it clicks into place.

Using the Smok Novo 3

Once your device is charged and the pod is filled, it's time to start vaping. Here's how to use the Smok Novo 3 effectively:

Turning On and Off

The Smok Novo 3 features an auto-draw system; there's no need for buttons. However, it's important to know how to turn the device on and off.

- To turn on: Simply inhale through the mouthpiece, and the device will activate automatically.
- To turn off: The device will power down when you stop inhaling.

Adjusting Airflow

The Smok Novo 3 has a unique airflow system. To adjust it:

1. Locate the airflow holes on the sides of the device.
2. Use your finger to cover one or more holes to increase or decrease airflow.
3. Experiment with different airflow settings to find your preferred draw resistance.

Tips for Optimal Vaping Experience

- Choose the Right E-Liquid: Use e-liquids that complement your coil resistance for the best flavor.
- Avoid Chain Vaping: Allow the device to rest between puffs to prevent overheating.
- Regularly Change Pods: Replace the pod when you notice a burnt taste or diminished flavor.

Maintenance of the Smok Novo 3

To ensure your Smok Novo 3 performs well, regular maintenance is crucial. Here are some tips:

Cleaning the Device

1. Remove the pod from the device.
2. Use a cotton swab or a paper towel to clean the contacts and the exterior of the device.
3. Avoid getting moisture into the micro USB port.

Replacing the Pod

- How to Know When to Replace: If you experience a burnt taste, reduced vapor production, or if the flavor changes significantly, it's time to replace the pod.
- To Replace: Pull out the old pod and insert a new one, ensuring it's securely in place.

Troubleshooting Common Issues

Even with proper care, you may encounter some issues. Here are common problems and their solutions:

Device Not Firing

- Cause: The battery may be discharged or the pod may not be connected correctly.
- Solution: Charge the device and ensure the pod is seated properly.

Leaking Pod

- Cause: Overfilling or a damaged pod.
- Solution: Check the fill port for proper sealing and ensure you're filling it correctly.

Burnt Taste While Vaping

- Cause: The cotton wick may be dry or the pod may be old.
- Solution: Allow the pod time to saturate after filling or replace it if it's been used for an extended period.

Conclusion

The Smok Novo 3 User Manual serves as a comprehensive guide to help you understand and utilize your device effectively. With its user-friendly design and features, the Smok Novo 3 is an excellent choice for vapers of all experience levels.
