Operating Instructions

To ensure the best performance and safety while using your Solax Transformer scooter, following the operating instructions outlined in the manual is crucial.

Charging the Battery

Proper charging is vital for the longevity of the scooter's battery. Follow these steps:

1. Locate the charger port: It's usually situated at the back or side of the scooter.
2. Connect the charger: Plug the charger into the scooter and then into a power outlet.
3. Check the indicator light: A red light usually indicates charging, while a green light indicates a full charge.
4. Charging time: The battery typically takes 4-6 hours to charge fully.

Folding and Unfolding the Scooter

The scooter's automatic folding feature simplifies the process:

1. To unfold: Press the button on the remote control or the scooter's control panel, and observe as it automatically expands.
2. To fold: Ensure the scooter is turned off, then press the folding button, and it will collapse into its compact form.

Operating the Scooter

Once the scooter is fully charged and unfolded, users can operate it as follows:

1. Starting the scooter: Turn on the power switch located on the control panel.
2. Adjusting the speed: Use the speed control lever to set your preferred speed.
3. Steering: Handle the handlebars to navigate. Lean slightly in the direction you wish to turn.
4. Braking: Release the accelerator to slow down and gently pull the brake lever to stop.

Maintenance Tips

To keep your Solax Transformer scooter in top condition, regular maintenance is essential. Here are some tips:

Regular Inspections

Perform routine checks on the following components:

- **Battery:** Ensure connections are secure and check for any signs of corrosion.
- **Tires:** Inspect for proper inflation and any wear and tear.
- **Brakes:** Test the brakes regularly to ensure they respond correctly.
- **Frame and Body:** Check for any loose screws or damages to the frame.

Cleaning the Scooter

Keep your scooter clean to prevent dirt and debris from affecting its performance:

1. Use a damp cloth: Wipe the frame and controls to remove dust.
2. Avoid harsh chemicals: Use mild soap and water if necessary.
3. Dry thoroughly: Ensure all parts are dry before storing or using.

Storage Guidelines

Proper storage can prolong the life of your scooter:

- Store in a dry, cool place away from direct sunlight.
- If storing for an extended period, charge the battery every few months to maintain its health.

Troubleshooting Common Issues

Despite its reliability, users may encounter some common issues with the Solax Transformer scooter. Here are some troubleshooting tips:

Scooter Won't Turn On

- Check Battery: Ensure the battery is charged.
- Inspect Connections: Look for loose wires or connections.
- Power Switch: Make sure the power switch is turned on.

Battery Not Charging

- Charger Issues: Test the charger with another device or replace it if necessary.
- Battery Condition: If the battery is old, it may need replacement.

Brakes Not Responding

- Check Brake Cables: Ensure cables are intact and not frayed.
- Adjust Brake Tension: Consult the manual for instructions on adjusting brake tension.
