## Understanding the Starbucks Menu

Starbucks offers a diverse range of beverages that can be categorized into several main types. These include:

- Coffee
- Espresso
- Blended Beverages
- Teas
- Refreshers
- Seasonal Drinks

Each category has its unique preparation methods and flavor profiles, making it crucial to understand them to enhance your ordering experience.

## Coffee

Starbucks coffee drinks primarily consist of brewed coffee, which can be customized in a variety of ways. Here are some popular options:

1. Pike Place Roast: A smooth and well-balanced medium roast that is a staple at Starbucks.
2. Dark Roast: A bolder option with a deep, rich flavor.
3. Blonde Roast: A lighter, more mellow brew with a slight sweetness.

Each coffee can be further customized with options such as:

- Milk choices (whole, skim, almond, soy, coconut)
- Flavor syrups (vanilla, caramel, hazelnut, etc.)
- Sweeteners (sugar, honey, stevia)
- Toppings (whipped cream, chocolate drizzle)

## Espresso

- Caffè Americano: Espresso shots topped with hot water for a lighter flavor.
- Latte: Espresso mixed with steamed milk and a small amount of foam; often flavored with syrups.
- Cappuccino: Equal parts espresso, steamed milk, and milk foam create a rich, creamy drink.

- Flat White: A smooth blend of espresso and microfoam, resulting in a velvety texture.

When ordering an espresso drink, you can specify the number of shots (1 or 2) and add flavors or alternative milk for a personalized experience.
