

sue folkerts dog training

Sue Folkerts dog training is a unique and effective approach to canine education that combines compassion, understanding, and proven techniques. With a focus on building a solid bond between dogs and their owners, Sue Folkerts has developed a reputation for her ability to transform unruly pets into well-mannered companions. This article delves into the philosophy, methods, and success stories of Sue Folkerts dog training, providing insights for dog owners looking for effective training solutions.

Understanding Sue Folkerts' Training Philosophy

Sue Folkerts believes that effective dog training goes beyond simple obedience commands. Her philosophy centers on the idea that every dog has its unique personality and needs. By taking these into account, she aims to foster a loving and respectful relationship between dogs and their owners.

Key Principles of Folkerts' Approach

1. **Positive Reinforcement:** Sue advocates for the use of positive reinforcement techniques, which involve rewarding desired behaviors rather than punishing unwanted ones. This method encourages dogs to learn and grow in a supportive environment.
2. **Understanding Canine Behavior:** Folkerts emphasizes the importance of understanding canine behavior and communication. By recognizing signs of stress, excitement, or anxiety in dogs, owners can respond appropriately and create a more comfortable training atmosphere.
3. **Customized Training Plans:** Each dog is different, and Sue Folkerts tailors her training plans to fit the specific needs of the dog and its owner. This personalized approach ensures that training is effective and enjoyable for both parties.
4. **Building Trust and Respect:** The foundation of Sue's training philosophy is the bond of trust between the dog and its owner. By fostering respect and understanding, dogs are more likely to respond positively to commands and training exercises.

Training Techniques and Methods

Sue Folkerts employs a variety of training techniques designed to cater to different learning styles and temperaments. Here are some of the most

commonly used methods in her training sessions:

1. Clicker Training

Clicker training is a popular method used by Sue Folkerts that involves using a small handheld device that makes a clicking sound. This sound marks the exact moment a dog performs a desired behavior, allowing for precise communication.

- Steps in Clicker Training:
- Choose a behavior to train.
- Wait for the dog to perform that behavior.
- Click the clicker as soon as the behavior is completed.
- Follow up with a treat or reward.
- Repeat the process to reinforce the behavior.

2. Leash Training

Leash training is crucial for ensuring that dogs walk politely and safely on a leash. Folkerts teaches owners how to communicate effectively with their dogs during walks.

- Leash Training Techniques:
- Use a well-fitted harness or collar.
- Keep the leash short but relaxed.
- Change direction if the dog pulls, teaching them to pay attention.
- Reward the dog for walking calmly beside you.

3. Socialization Exercises

Socialization is an essential part of a dog's development. Sue Folkerts incorporates socialization exercises in her training programs to expose dogs to different environments, people, and other animals.

- Socialization Tips:
- Introduce your dog to various settings gradually.
- Allow your dog to meet other well-behaved dogs.
- Use positive reinforcement when your dog reacts calmly to new experiences.

Success Stories and Testimonials

The effectiveness of Sue Folkerts dog training is evident in the numerous success stories shared by her clients. Many dog owners have experienced

transformative changes in their pets through her methods.

Case Study: Max the Rescue Dog

Max, a rescue dog with a history of neglect and anxiety, struggled with basic commands and often exhibited fearful behavior. After enrolling in Sue Folkerts' training program, Max showed remarkable improvement.

- Training Outcomes:
- Within weeks, Max learned to respond to basic commands like "sit" and "stay."
- His anxiety decreased significantly as he grew more comfortable with his surroundings.
- Max's owners reported a drastic change in his behavior, allowing them to enjoy walks and outings without stress.
