Understanding Suffixes

Suffixes are groups of letters added at the end of a word to alter its meaning or function. They can change a word's part of speech, tense, or form. The suffixes “-ly” and “-y” are particularly common in the English language.

The Suffix "-ly"

The suffix “-ly” is primarily used to convert adjectives into adverbs. This transformation allows words to describe how an action is performed. For example:

- Quick (adjective) → Quickly (adverb)
- Happy (adjective) → Happily (adverb)

The addition of “-ly” often conveys a sense of manner or degree. Students learning to use “-ly” can better express actions and behaviors in their writing.

The Suffix "-y"

The suffix “-y” is often used to form adjectives, indicating a characteristic or quality of a noun. For example:

- Joy (noun) → Joyful (adjective)
- Dirt (noun) → Dirty (adjective)

In some cases, “-y” can also indicate a condition or state, such as:

- Sleep (verb) → Sleepy (adjective)
- Rain (noun) → Rainy (adjective)

Understanding how to use the suffix “-y” enriches a student’s vocabulary and enables them to create more descriptive language.
