What is Sunday Ticket?

Sunday Ticket is a premium NFL subscription service that allows fans to watch out-of-market Sunday afternoon games live. Unlike traditional cable packages, Sunday Ticket provides access to games that are not broadcast locally, offering a broader range of NFL content for enthusiasts who want to follow teams outside their regional area. This service is especially valuable for fans living in areas without local teams or those who want to watch multiple games simultaneously on game day.

Originally offered exclusively through satellite providers, Sunday Ticket has expanded to include streaming options, broadening its accessibility. It includes all Sunday afternoon games that are not shown on the local FOX or CBS affiliates, making it a comprehensive solution for NFL fans seeking extensive coverage throughout the season.

Sunday Ticket Channel Availability

Understanding which channels carry Sunday Ticket content is crucial for subscribers. Sunday Ticket is available primarily through DirecTV's satellite service and as a standalone streaming option known as NFL Sunday Ticket Max. The channel lineup varies based on the platform and subscription package.

DirecTV Satellite Channels

DirecTV subscribers who purchase Sunday Ticket gain access to a dedicated

group of channels that broadcast every out-of-market Sunday NFL game live. These channels are typically part of the NFL Sunday Ticket package and are accessible via specific channel numbers depending on your DirecTV receiver.

NFL Sunday Ticket Streaming Channels

For non-satellite users, NFL Sunday Ticket Max offers streaming access to games on various devices. The streaming service does not rely on traditional channels but instead provides a digital interface where users can select games to watch live. This option is ideal for cord-cutters and viewers without DirecTV subscriptions.

Local Affiliate Channels

It is important to note that Sunday Ticket does not replace local broadcasts. Games that are local to a viewer's market will still air on FOX and CBS affiliates, and those games will not be available through Sunday Ticket. Subscribers often use Sunday Ticket to supplement their local coverage with additional games.

Subscription Plans and Pricing

Sunday Ticket offers various subscription plans designed to meet different viewing needs and budgets. Pricing and availability may vary depending on whether you subscribe via DirecTV or the standalone streaming service.

DirecTV Sunday Ticket Packages

DirecTV's Sunday Ticket subscription typically requires a satellite TV contract. Subscribers can choose from basic Sunday Ticket packages or premium options like Sunday Ticket Max, which includes additional features such as access to NFL RedZone and the ability to watch multiple games simultaneously.

NFL Sunday Ticket Streaming Plans

The streaming version of Sunday Ticket often offers more flexibility, including no-contract monthly subscriptions. This option is targeted at users who want to watch games on mobile devices, computers, or smart TVs without satellite equipment.

Additional Costs and Promotions

Occasionally, promotions and discounts are available, particularly for new subscribers, students, or those bundling Sunday Ticket with other services. It is advisable to review the latest offers before committing to a plan.

Device Compatibility and Access Methods

Accessing Sunday Ticket requires compatible hardware or software depending on the subscription method. Ensuring your devices support the service is essential for an optimal viewing experience.

Supported Devices for DirecTV Subscribers

DirecTV satellite customers can watch Sunday Ticket on their set-top boxes connected to their television. Some models also support DirecTV's app, which allows streaming on smartphones, tablets, and computers.

Streaming Device Compatibility

NFL Sunday Ticket Max streaming subscribers can access games on a wide range of devices, including:

- Smart TVs
- Streaming media players (such as Roku, Amazon Fire TV, Apple TV)
