History of TCI

Founding and Evolution

Teachers' Curriculum Institute was founded in 1990 by a group of educators committed to transforming the way social studies were taught in schools. They recognized that traditional methods were often dry and uninspiring, leading to disengagement among students. TCI aimed to create materials that were not only educational but also interactive and enjoyable.

The company began its journey by developing resources that emphasized experiential learning, allowing students to engage with historical content through activities, role-playing, and collaborative projects. Over the years, TCI has expanded its offerings, ensuring that educators have access to a comprehensive suite of materials that cater to diverse learning styles.
