Administered by Pearson VUE on behalf of the Texas Real Estate Commission (TREC), the exam evaluates candidates' knowledge of real estate principles, laws, and practices specific to Texas. The exam is divided into two portions: the national portion, which covers general real estate knowledge applicable across the United States, and the state portion, which focuses on Texas-specific laws and regulations.

The exam consists of 110 multiple-choice questions, with 80 questions dedicated to the national section and 30 questions for the state section. Candidates are given 4 hours to complete the entire exam. A passing score requires at least 70% correct answers on each portion. TRELA governs the licensing, regulation, and disciplinary actions related to real estate professionals in Texas. It outlines the qualifications for obtaining and maintaining a license, prohibited practices, and the authority of the Texas Real Estate Commission.

Contract Law

Contracts are central to real estate transactions. Candidates must know the essential elements of a valid contract, types of contracts commonly used in real estate, and the consequences of breach or non-performance.

Property Ownership and Land Use

Knowledge of various ownership types, easements, encumbrances, zoning laws, and land use restrictions is tested to ensure agents understand legal property rights and limitations.
