- What is the basic unit of heredity?
- A) RNA
- B) Protein
- C) Gene

- D) Chromosome

2. Short-Answer Questions

These require students to provide a brief explanation of concepts. For instance:

- Explain the process of transcription in gene expression.

3. True or False Statements

Students must determine the accuracy of statements based on the video's content. For example:

- "All mutations are harmful." (True/False)
