## Listening Comprehension

The Listening Comprehension section tests the ability to understand spoken English in various everyday and academic situations. This part includes conversations, announcements, and lectures that students must listen to and answer questions about. It typically consists of multiple-choice questions that assess understanding of main ideas, details, and inferences.

## Language Form and Meaning

This section evaluates the knowledge of English grammar and vocabulary. Students are tested on their ability to recognize correct language usage, sentence structure, and word meanings. Questions may include identifying errors or choosing the correct word to complete a sentence, helping to gauge the learner's grasp of language mechanics.

## Reading Comprehension

The Reading Comprehension section measures reading skills through passages followed by questions. The texts are designed to reflect academic and social topics relevant to young learners.
