- **Double Top and Double Bottom:** Formed by two distinct peaks or troughs at roughly the same price level, indicating potential reversals.
- **Triple Top and Triple Bottom:** Similar to double tops and bottoms but with three peaks or troughs, indicating stronger reversal signals.

Continuation Patterns

Continuation patterns suggest that the current trend will resume after a brief consolidation period. Notable continuation patterns include:

- **Triangles:** Symmetrical, ascending, and descending triangles indicate continuation of the existing trend with varying degrees of strength.
