- **Identify Edge Pieces:** Look for pieces with flat edges that will form the outer perimeter of the puzzle.

2. Work in Sections

Instead of trying to complete the puzzle in one go, break it down into manageable sections.

- **Start with the Corners:** Focus on assembling the corner pieces first, as these will help anchor your sections.
- **Create Small Clusters:** Group pieces that visually connect and work on completing these clusters before linking them to the larger puzzle.

3. Use the Image as a Guide

The image on the box or the guide can be incredibly helpful.

- **Visualize the Completed Puzzle:** Keep the completed puzzle image in view to help you determine where each piece might fit based on the colors and patterns.
