The phrase "training wheels" literally refers to the small auxiliary wheels attached to a child's bicycle to help maintain balance while learning to ride. Figuratively, in Melanie Martinez's song, "Training Wheels" symbolizes the tentative and cautious steps taken in a romantic relationship. The metaphor suggests that the relationship is in its early stages or that one party is hesitant about fully committing, much like a child relying on training wheels before confidently riding alone. This linguistic duality enriches the song's meaning, allowing listeners to connect with both the innocence and vulnerability implied by the metaphor.

Literal Definition of Training Wheels

They are temporary and meant to be removed once the rider gains confidence and balance. This concept of gradual progression and learning is central to understanding the metaphorical use in the song.

In "Training Wheels," the metaphor extends to the idea of emotional support and protection in a romantic context.
