Installation Instructions for Yardlock Keyless Gate Lock

Installing the Yardlock keyless gate lock is a straightforward process that can be completed with basic tools. Below, we will outline the steps for a successful installation.

Tools Required

Before you start, gather the following tools:

- Phillips screwdriver
- Flathead screwdriver
- Drill (if necessary)
- Measuring tape
- Level

Installation Steps

Follow these steps for a successful installation:

1. **Select the Location:** Choose an appropriate spot on your gate where the lock will be installed. This area should be easily accessible but also secure.
2. **Measure the Height:** Using a measuring tape, mark the height at which you want to install the lock, typically around 4-6 feet from the ground.
3. **Prepare the Gate:** If your gate does not have a pre-drilled hole, use a drill to create one according to the specifications provided in the Yardlock manual.
4. **Attach the Lock Body:** Align the lock body with the drilled hole, ensuring it is level before securing it with screws. Use the Phillips screwdriver to tighten the screws.
5. **Install the Strike Plate:** Position the strike plate on the gate post opposite the lock. Ensure it aligns correctly with the lock and secure it with screws.

6. **Set Up the Code:** Follow the instructions provided in the manual to set your personal access code. This usually involves pressing the programming button and entering your desired code.
7. **Test the Lock:** After installation, test the lock several times to ensure it operates smoothly. Adjust as needed to ensure proper alignment.

Setting and Changing Your Code

Setting a unique code for your Yardlock keyless gate lock is crucial for security. Here's how to do it:

Initial Code Setup

1. **Enter Programming Mode:** Press and hold the programming button on the lock until you hear a beep.
2. **Input Your Code:** Enter your desired 4 to 6-digit code within a few seconds.
3. **Confirm the Code:** Press the programming button again to save your new code. You should hear a confirmation beep.

Changing Your Code

To change your code at any time:

1. **Enter Current Code:** Unlock the gate using your current code.
2. **Access Programming Mode:** Press and hold the programming button until you hear a beep.
3. **Input New Code:** Enter the new code you wish to use.
4. **Confirm the Code:** Save the new code by pressing the programming button.

Troubleshooting Common Issues

While the Yardlock keyless gate lock is designed for reliability, you may encounter some issues. Here are common problems and their solutions:

Lock Doesn't Open

- **Check Battery:** Ensure the batteries are charged. Replace them if needed.

- **Verify Code:** Double-check that you are entering the correct code.
- **Inspect Alignment:** Ensure the lock and strike plate are properly aligned.

Lock Is Stuck

- **Lubricate Mechanism:** Use a silicone-based lubricant to ease any stiffness in the locking mechanism.
- **Ensure Proper Installation:** Check that the lock body is installed correctly and not too tightly secured.

Code Not Accepted

- **Hold Programming Button:** Ensure you are holding the programming button long enough during setup.
- **Reset Lock:** If necessary, reset the lock to factory settings and re-enter your code.

Maintenance Tips for Your Yardlock Keyless Gate Lock

To ensure your keyless gate lock remains in good working condition, consider the following maintenance tips:

- **Regularly Check Batteries:** Replace batteries at least once a year to avoid power failure.
- **Clean the Lock:** Wipe down the exterior with a damp cloth to remove dirt and debris.
- **Inspect for Wear:** Regularly check for any signs of wear or damage and address them promptly.
